

Octacell phone booths

octacell

Soundproof workrooms
that scale.

What's Octacell?

octacell

Scalable workrooms with industry-leading sound insulation

All Octacell spaces are made from the same elements

Fully modular, with customizable colors, materials and layout

A sound-insulated space for focused work, calls and confidential conversations

Efficient and quiet ventilation

Designed and manufactured in Finland

Sizes for different needs

The element structure makes it easy to size the space for different uses and floor plans.

octacell

Built to **scale** over time

The Octacell rooms can be modified, expanded and relocated even after installation.

1. Choose the right fit

Start with a solution that supports your current way of working.

2. Modify it later

The room can be resized or divided as requirements change. The materials and finishes can also be updated later.

3. Move to a new office

If your office moves, the Octacell room can be relocated to the new address.

A more exact fit

In addition to standard sizes, Octacell rooms can be built with half-size elements.

Octacell 2X1

Octacell 2X1,5

Octacell 2,5X1,5

Industry-leading sound insulation – tested and proven

Measurement standard: ISO 23351-1:2020

33,1 dB

Class A+

Determination of speech level reduction applying the methods of ISO 23351-1:2020 for field testing

Speech level reduction $D_{S,A}$ (field) 33,1 dB

Calculated based on one-third octave band field measurements.

The results are only valid for the tested specimen configuration. Changes in size, geometry, or materials may lead to significant changes in reported results.

octacell

Measurement standard: ISO 16283-1

$D_{nT,w}$ [dB] = 44 dB

3.2 Results

Results for standardized level difference are listed in table 2 below.

Table 2. Measurement results of standardized level difference.

No.	Horizontal / Vertical	Source room	Receiving room	$D_{nT,w}$ [dB]
1	H	Office space	Octacell 4x4 with a sliding glass door	44

The results are only valid for the tested specimen configuration. Changes in size, geometry, or materials may lead to significant changes in measured results.

This document may only be presented or published in its entirety with the appendix.

SITOWISE AKUSTIIKKA
sitowise.com/akustiikka
020 7118 590

$R'w$ [dB] = 41 dB

3.2 Results

Results for apparent sound reduction index are listed in table 2 below.

Table 2. Measurement results of of apparent sound reduction index.

No.	Horizontal / Vertical	Source room	Receiving room	$R'w$ [dB]
1	H	Office space	Octacell 4x4 with a sliding glass door	41

The results are only valid for the tested specimen configuration. Changes in size, geometry, or materials may lead to significant changes in measured results.

This document may only be presented or published in its entirety with the appendix.

Standard equipment

Exterior

Water-based white paint

Interior

Strip panel

Acoustic walls

Carpet floor

Painted ceiling

Technology

Adjustable ventilation

Mechanical, efficient and quiet ventilation

Power outlets

Outlets can be placed according to your needs

Adjustable LED lighting

Energy-efficient lighting

Modular design

Portable and convertible in one day

Additional equipment

Structural options

150 mm

Ceiling height extension

The unit can be elevated by 150 mm, increasing interior height up to 2200 mm.

Privacy solutions for glass surfaces

Glass surfaces can be fitted with privacy films and optional pleated blinds.

Locking mechanisms

Supports various locking systems and optional access surveillance solutions.

Fire suppression

Automated and independent fire suppression system.

Interior & technology

Furniture

Our spaces can be freely equipped with the furniture of your choosing.

Audiovisual equipment

The rooms can be equipped with displays, reservation systems, integrated face lighting, and video conferencing solutions.

octacell

Materials & finishes

Fully customizable
inside and out

Create a workroom that
fits your space seamlessly.

Exterior finishes

Wood veneers

Oak

Birch

Painted surfaces (RAL)

Standard color

All RAL colors available

octacell

Interior upholstery colors

Standard color

Martindale > 100 000
High durability
for demanding use.

Recycled wool
A responsible
choice of material.
